tendency: New-York Central, 914 a 914: Erie, 832 2832; Hudson River, 103 2104; Reading, 971 @971; Michigan Southern 741 @741; Cleveland and Pittsburgh, 767 @ 764; Rock Island, 1071 @ 108;

521 2521; Fort Wayne, 891 2891. Money on call is 6@7 per cent, and was offered among brokers at the lower rate. In Commercial paper there is more doing, but rates are well sustained. Best names pass at 7271, good at 829, and ordinary at 10@15 per cent.

North-Western, 251 226; North-Western Pref.,

In Exchange little doing. Leading names at 60 days are held at 1081; Commercial bills, 107 @ 1071; Francs, 5,214 @ 5,184.

The business of the Sub-Treasury was: Receipts. \$1.765,142 16-for Customs, \$271,000; Payments, \$1,600,942 50; on Account Loan, \$12,500; Balance, \$89,375,636 95; Coin certificates, \$124,000.

Holders of bonds of the Wilmington and Manchester road will find a card of interest to them in another column.

In Freights, the engagements to Liverpool are 400 bales Cotton, at 5-16 @ id.; 250 tes. Beef, at 3s.; 450 bbls. Rosin, at 2s. per 280 lb; and per steamer, 750

tes. Beef at 3s. 6d., and 800 tes. Lard at 25s. The charters are, a bark to London, with 35,000 bush. Oats, at 6id.; the bark G. Bell (now at Baltimore). to come here for 30,000 bush. Corn, to Cork and a market, at 6s. 8d. per quarter; an Italian vessel to Tarragona and back, with Staves, at a round sum, and a brig to a port in Spain, with Staves, at \$40 for extra heavy pipe.

The advance in American stocks abroad is a very encouraging and should stimulate Congress into giving the Secretary the power he asks in regard to loans. One year has made great changes for the better in United States stocks, and instead of being held in Europe for their merits for income, they are now recognized as valuable on the ground of security for the principal. In one year gold has fallen 197 to 132 or \$65 of currency upon \$100 of gold, while the 5-20s have only fallen from 1104 currency to 1034, or 7 per cent, and this too in the face of an increase of

	NEW-YORK I
The same of the sa	ment showed the temporary loans to be \$15,000,000 in excess of its cash in hand, with income in excess of expenses sufficient to make it certain that no loans for the current expenses of the Government will be required for the iscal year, leaving the Secretary free to proceed with the funding of the currency debt. Now that money is reported by speculators as easy and abundant, the Secretary should proceed to get the compound notes into 5.2-s, and keep them constantly before the public as long as they can be retired by 5.20s at par in exchange for the compounds with their accrued interest. These notes have ceased to be currency, and no time should be lost in offering inducements to their notders to exchange them for gold-bearing bonds, and make it certain that at maturity they will not have to be paid off in currency, to the injury of legitimate business. If the Secretary will announce his readiness to exchange 5-20s, ex-corpon, on the ist of May for compound notes and 7.30 notes, with accrued interest to that date, and allow the National Banks the commission authorized by law of ith of 1 per cent for their laber, a very large amount of currency debt can be put into long bonds, and the Treasury be materially aided. The payment of a commission is essential to the success of any funding plan, as will be apparent to all who consider for a mement how the 7-30s and compounds are held, and how the 7-30s were distributed. They were taken to every man's door, and a commission paid for this service. In order to effect an exchange of long bonds for short debt as much trouble must be taken, and a compensation male to the brokers to effect it. This plan is simply the exchange of a short investment for a long one, and invalves to contraction of the entreney whatever,
	involves no contraction of the currency whatever, except that which might be caused by banks ex- changing compound notes held as reserve of legal- tender into bonds.

The Chicago Republican of Monday night says: The Chacago Republican of Monday hight says:

The decline in sold is causing a good deal of depression in the general markets, and business in tradecities is very doll. Envers are purchasine only to the extent of supplying immediate wants. The immession seems to prevent that gold will decline to 12% and another depreciation in all commodities of produce and merchandise is anticipated. The money market is close and firm. The businers are running a very cautious and conservative course, and in all cases refers to pheer at a director and produce por rather is not first-class. Advances on produce por rather is not first-class. Advances on produce por rather in all cases refers to pheer in the street money is loaned at lary per cent per month.

The New Orleans Trans Delta, of March Lee. The New-Orleans True Delta of March 1 re-

ports:

Foreign exchange has been dull and neglected throughout the day. The market, as heretefore, was simply supplied, while the demand wis at as time much better than nominal most of the principal bursers having still kep out of the market. The closing rates this evening ruled as follows, that Bark Sterding, 1474 (2014); Clear Bills, 1454 (160). Bull of Lading Bills, 1454 (2014); Bull of Lading Bills, 1445 (161). Bull of Prancial 85 (2013). The movement in domestic exchange has assumed greater steadiness to day. All of the backs, with one exception, checked throughout on the Northern cities at 4 per cent discount. The following is the Now-Orleans cotton statement for February 28.

Stock on land and on ship-board not clear	

With reference to the market for American sec rities, Messrs. Satterthwaite & Co. report as fol-

Gold is weaker, and closes at 131½ 213½, after selling as low as 131½.

Government stocks are steady and in moderate demand. Missouri 6s are strong at an advance. In Railway mortgage at tribedoing, without material change in prices. In the Missourian has not been so strong, and as the leading bears have closed out, the strongest element in the stock has been lost. The opening rate was 86½ and as low as 83½ was accepted by 2½ p. m., closing at 83½ 283½. This stock is dangerous alike to bulls and bears, and the leaf for the fact that six months bank ble have been taken to day at a still lower rate, namely, 6½ P cent. It is expected, however, toat the market was without special interest. The latest quotations were as follows, with a downward tendency: New-York Central, 91½ 23½: Erie,

ADAMANTINE BRICK PRESS.

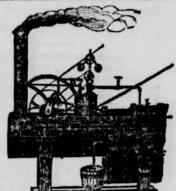

ADAMANTINE BRICK PRESS COMPANY,
No. 175 BROADWAY. NEW YORK.

WE PRESENT to the public the first and
only BRICK MACHINE ever invented, which makese
PENFECT PRESSED BRICK from pure clay, without a crack or
check, and so simple in its construction as to recommend it to
general use, as a substitute for any and all brick machines
known to the country.
It makes Brick smooth, perfect, and uniform in size and
quality; cheaper than common mud brick can be made, and
superior to any Philadelphia pressed brick ever offered in
market.
The Machines are made with from one to eight molds, and
will cost from \$700 to \$1,500. Two-horse power will run
two molds, and five-herse power will run-right molds.
One mold will turn out 7,000 bricks in 12 hours, and eight
molds \$0,000.
The brick thus made are impervious to molesure, and

The Machine is now in operation in sector of the can be seen.

It is only necessary for practical business men to see the Machine in operation, and examine its product, to be convinced that it is destined to work an entire revolution in the manufacture of Brick.

We offer for SALE, Rights of States, Counties, Cities, and Towns, upon reasonable terms. Machines furnished to order L. C., WOODRUFF, President, C. L. CORNISH, Tressurer, J. M. WHITCOMB, Secretary.

SEWING-MACHINE, making the Elastic Sitch, and
the most simple and officient Family Sewing Machine ever
offered in America, having a combination of all the advantages
of the best and most ropular Sewing-Machines, with other
great improvements, making it more simple and perfect in its
operation than any other. Fixee \$43.

Mune. DEMOREST'S EMPORIUM OF FASHIONS, Gencral Agency for the United States.

(inou and responsible agents will be appointed on application

One mold will turn out 7,000 bricks in 14 hours, and eight molds 20,000.

The brick thus made are impervious to moisture, and consequently secure from the action of frost.

They are really for huming when discharged from the mechine—require no banding or drying—and may be immediately subjected to my degree of heat.

By this process of manufacture, the air and moisture are expelled from the clay by means of perforators, which enter the moid when folled, and are suddenly withdrawn as the brick receives its final pressure: consequently, EVERY BRICK BURNS PERFECTLY, WITHOUT CHACKING, CHECK-ING or WARPING, and EVERY BRICK is PERFECT WHEN IT COMES FROM THE KILN.

The Machine is now in operation in Jersey City, where it can be seen.
